If this isn't proof that anonymous (the top 'members') have been using the Solomon Keys the same way the elites have and in subtle ways have been warning us about this agenda shit for a long-ass-time,

I don't know what is enough to convince everyone here that they're dead eight and not cuhrazee.

Follow the Q's. There are feds here, yes, we all read Qabala and theosophy and understand hemisync, those brave enough to put the key back on their wrist (the one the body won't let you cut) and go through full Kundalini, let the light into their forehead know witchcraft is real and it's how we all summoned trump into office (why didn't the fucking libtards stay out of our media). Anyway, oldfags in the shadows here - keep guiding the youth, remember who they killed and what they hid from humanity

Don't step on snek.

YVHV.

you sound like you're a lost tourist.

that post is fake as there is multiple archive of that very same post number.

>Follow the Q's.

lol dead cult that was only meant to IP-log journalists, whistleblowers, and paranormals. do not want (do not wand).

>There are feds here, yes, we all read Qabala and theosophy and understand

hemisync,

hemisync works by inducing brainwave states though most available resources out there are already programmed against "our" benefit. Kabala is cringe and a retrograde cultivation technique only aimed to maim a cultivator's understanding and develop the worst preconceptions whilst being underlings of an existing cult order that will just use you as goylem

>those brave enough to put the key back on their wrist (the one the body won't let you cut) and go through full Kundalini,

kundalini is sexual or life force energy. it's not complicated and people autocast those all the time even during conception. what's complicated is staying in that usually temporary state, this is why most monks, monastic practitioners, and advanced reality cultivators get rid of sexual desires by simply channeling that energy work with precision.

>let the light into their forehead know witchcraft is real and it's how we all summoned trump into office (why didn't the fucking libtards stay out of our media).

tourist confirmed. also I don't trust trump simply because "same bloodline as every president ever". you didn't meme magick. (((they))) meme magicked you into thinking that you had a chance when it was all part of their plans. my hope is only pinned into the last bastion of Christianity which is Orthodox Christian Church home to Russia, may they purge the filth (human trafficking, p*do shit) in Ukraine.

>Anyway, oldfags in the shadows here - keep guiding the youth, remember who they killed and what they hid from humanity

lol keep trying fed/goylem.

I've been reading about magick, seeing posts giving praises to certain angelic and demonic entities, and I want to practice magick in my life, primarily to help boost my business and sales.

Thing is, I don't know where to start or which books could help for my success. Any /x/ practitioners who know which books to read or where to start in magick for a beginner like me?

There seems to be some force actively undermining my existence. I can see the pavlovian dog training. There is definitely a off-grid/homeless agenda.

Buddhism/Taoism/Eastern crap. Meditation. Fasting. Dumpster diving. Hanging out with homeless stinkers and fakers. Sitting in nature. No fap. Blah blah blah

Are any of you experiencing this and are you actively resisting this force? I get everything blocked and some joker making fun of me when I apply for jobs, housing or attempt to get

rideshares. Even when I try to fap it will holographically unproject foliage so my cock is exposed. You wouldn't believe it if you witnessed it. I've seen it happen multiple times. It's like somebody is sitting behind a computer screen fucking with me. This isn't gangstalking, this is some douchebag behind a simulation

I'm gonna get more active rebelling. I'm in a place that has a name that relates to mizing (roll eyes) but I refuse to mize. I'm still drinking and eating foods that won't make me gag. I've stopped communicating with almost everybody. IF I DON'T GET WHAT I WANT, I'M CERTAINLY AIN'T GIVING IT SQUAT. IT CAN SUCK MY ASS WHEN I'M SHITTING. It wants me jumping into dumpsters, I only look on top of trash containers for gourmet food. I'm still being too accommodating to the cunt behind this shit.

Resistance is your only weapon against this dickhead. Non-participation. Going along with and surrendering to the script is for pussies

☐ **/x/ A Dilemma of Religion and Magic Anonymous**
10/21/22(Fri)00:16:24 No.33167865 [Reply]

For the practitioners here, particularly those with Abrahamic religious backgrounds, what was your first experience with magic and why/how did you decide to partake in it or experiment with it?

Since I stumbled on the concept of ceremonial magic and all its related subjects (around 6 months ago) while trying to pursue and understand God, I've been completely fascinated with this concept of Divinity. Not only that but the amount of strange "coincidences" that have occurred in my life since then have been profound. Maybe it's just me paying more attention, not entirely sure.

Here's the dilemma and maybe some of you can relate - Everything I read in the Grimoires and listen to others talk about on podcasts has this "you can look, but don't fucking touch"

vibe to it. Is this God or my HGA trying to protect me? Does anyone else get this feeling, or am I just being a huge pussy? I understand that some of the subject matter can completely ruin one's life, and I have no interest in risking the integrity of my soul in that way, but the curiosity to try some sort of experiment is overwhelming.

Will I piss off God for taking the leap forward? Even for something like making a Talisman? Is that considered Idolatry, or would this be considered worship because I'm not calling on God directly for a desired outcome?

Are we even meant to wield this sort of power?

If you've been where I'm at, I just ask for you to share your experiences here.

>> ☐ **Anonymous** 10/21/22(Fri)07:11:52 No.33169836

God is more than any man made religion or esoteric system can even begin to comprehend, so who knows or cares what you do magically but you. your ultimate goal with magick isto do excatly what you said, become one with the highest form of yourself and reconcile it with the low parts. it is dangerous though, so you need to have a solid perspective on the world and if you are mentally ill than resources and such to help you stay functional.
